**Title** : Exploring the Afghanistan Culture:  
A Journey Through Tradition and Daily Life

**Guest** : JAMAL (Afghanistan/ Kabul City)

**Abstract** :

Afghanistan is a famous country in the news media, yet its culture receives less attention. Researchers called Afghanistan “the crossroad of Asia” and the meeting point of cultures traveling along the Silk Road.

In part one of presentation, we will explore Afghanistan's geography, languages, and music.

In part two, we will learn about traditional foods, festivals, and daily life.

In part three, we will see beautiful historical and natural landscapes. I want to mention that we will play three pieces of wonderful music at the end of each part. I am sure that you will like it.
