Title : From Burkina Faso to Japan

Guest : Mr. BONZI Desire Abdoul Kader (Burkina Faso)

- **Abstract :** This presentation explores an intercultural journey that connects Burkina Faso and Japan through personal experience, cultural identity, and technological ambition. It details the journey and vision of BONZI Desire Abdoul Kader (ボンジ.デジレ.アブドゥル.カデル), an IT Officer pursuing a master's degree in Japan.
- It begins by introducing the deeply rooted community values of Burkina Faso; respect for elders, rich artistic traditions and colourful festivals, highlighting how family, solidarity and resilience shape everyday life. Traditional practices, from greetings to shared meals, illustrate a society where bonds and mutual aid remain essential.
- Student life in Kansai is described through academic engagement, language learning, and discovery of iconic cultural sites. Fundamental Japanese principles such as monozukuri (the passion for the art of making and the relentless pursuit of perfection) and wa (harmony) appear as transformative influences, reshaping the speaker's approach to discipline, teamwork, and innovation. The presentation also highlights the emphasis on proactive cybersecurity through advanced threat monitoring. The ultimate goal is to serve as a bridge, adapting high-level Japanese technology and security expertise to support critical sectors such as healthcare, energy and agriculture in West Africa, thereby promoting sustainable development and digital infrastructure resilience.
