**Title : Cultural Bridge: Experiencing Japanese Culture and Sharing the Essence of Paraguay and Its Guarani Roots**

**Abstract :** In this presentation, I will share my journey of transitioning from a student of the Japanese language to living in Japan and experiencing its culture firsthand. Having studied Japanese recently, I now have the chance to immerse myself in various aspects of Japan, such as its language, education, diet, customs, and lifestyle. I will also introduce Paraguay, my home country, explaining its traditions, customs, and values. While Japan and Paraguay are culturally distinct, both share a strong sense of community. My goal is to offer a perspective on how both cultures shape my experience and how we can strengthen cultural ties between Japan and Paraguay.
