Title : Egyptian Culture: Bridging the Past and the Present

Guest : Ms.Salma Argawy FathaAllah Argawy Hassanien
(Egypt – Alexandria)

Abstract : Egyptian culture is a remarkable blend of deep-rooted traditions and modern influences. From the grandeur of ancient civilization, with its art, architecture, and philosophy, to the vibrant social and cultural life of contemporary Egypt, the nation has continuously redefined its identity while preserving its heritage. This lecture explores the enduring values, customs, and artistic expressions that shaped Egypt's past and examines how they coexist with today's globalized lifestyle. By highlighting the continuities and transformations in language, festivals, family life, and education, the talk offers a lens into how Egypt harmonizes its history with modern aspirations.
